# Land Preservation Options

There are several ways to preserve or restore the natural resource value of all or part of your land. You may not yet be familiar with all of these options:

- sale at market value
- bargain sale
- donation to a public or private conservation agency
- conservation easement on privately-owned property
- estate planning

The Conservation Foundation, a not-for-profit land and watershed protection organization is working with the DeKalb County Forest Preserve District in this preservation effort.
