My goal as Coroner of DeKalb County is to provide the citizens with the most professional death investigation regarding the cause and manner of death, in cases where the Coroner has the responsibility. At the same time this is accomplished with the most cost effective methods possible. The statistics compiled for this annual report will provide the public, medical profession, and law enforcement agencies with beneficial information.

If you have questions regarding this office or any of the material contained in this report, please feel free to contact my office at any time.

Dennis J. Miller, Coroner of DeKalb County

TYPES OF DEATH THAT MUST BE REPORTED TO THE CORONERS OFFICE

ATTENTION:

POLICE OFFICERS
HOSPITALS
FUNERAL DIRECTORS
PHYSICIANS
EMBALMERS
AMBULANCE ATTENDANTS
VITAL STATISTICS REGISTRARS
HOSPICE ORGANIZATIONS

The following information has been compiled for the purpose of acquainting individuals and organizations with the procedures to be followed when they come in contact with the types of deaths described in the following pages.

Conformity with these procedures will prevent unnecessary delay and inconvenience to the family, friends, and those persons having any responsibility to and for the deceased.
NOTIFICATION IN CASE OF DEATH BY VIOLENCE OR SUICIDE

Any person who discovers the body or acquires the first knowledge of the death of any person who died as the result of criminal or other violent means, or by casualty, or by suicide, or suddenly when in apparent health, or in any suspicious or unusual manner, shall immediately notify the office of the Coroner of the known facts concerning the time, place, manner and circumstances of such death, and of any other information which is required by the Coroner.

NOTIFICATION BY HOSPITAL

Any person D.O.A. (Dead on Arrival) at hospitals, these cases are to be reported immediately, and no person shall, without an order from the Coroner, willfully touch, remove, disturb the body or disturb the clothing or any article upon or near such body. This includes any death, which occurs within twenty-four (24) hours after admission.

NOTIFICATION BY PHYSICIAN IN CASE OF DEATH BY VIOLENCE OR SUICIDE

When any person dies as a result of criminal or other violent means, or by casualty, or by suicide, or suddenly when in apparent health, or in any suspicious or unusual manner, the physician called in attendance shall immediately notify the office of the Coroner of the known facts concerning the time, place, manner and circumstances of such death and if request is made for cremation, the Funeral Director called in attendance shall immediately notify the Coroner.

I. Accidental Deaths: (All forms including death arising from employment)

1. Anesthetic Accident (Death on the operating table prior to recovery from anesthesia).
2. Blows or other forms of mechanical violence.
3. Crushed beneath falling objects.
4. Burns
5. Cutting or stabbing
6. Drowning (actual or suspected)
7. Electric shock
8. Explosion
9. Exposure
10. Firearms
11. Fractures of bones (not pathological). Such cases to be reported even when the fracture is not primarily responsible for the death. All hip fractures, if patient dies within one year and one month is considered a Coroner's case and the Coroner must be notified.
12. Falls
13. Carbon monoxide poisoning (resulting from natural gas, automobile exhaust or other).
14. Hanging
15. Heat Exhaustion
16. Insolation (sunstroke).
17. Poisoning (food poisoning, occupational or other).
18. Strangulation
19. Suffocation (foreign object in bronchi, by bed clothing or other means).
20. Vehicular Accidents (automobile, bus, railroad, motorcycle, bicycle, or other).

II. Homicidal Deaths

III. Suicidal Deaths

IV. Abortions: Criminal or self-induced

When the manner of death falls within the above classification, such death must be reported to the Coroner even though the survival period subsequent to onset is 12 months.

V. Sudden Death

When in apparent health or in any suspicious or unusual manner including:

1. Alcoholism

2. Sudden death on the street, at home, in a public place, at place of employment.

3. Deaths under unknown circumstances, whenever there are no witnesses or where little or no information can be elicited concerning the deceased person. Deaths of this type include those persons whose dead bodies are found in the open, in places of temporary shelter, or in their home under conditions, which offer no clues to the cause of death.

4. Deaths, which follow injuries sustained at place of employment whenever the circumstances surrounding such injury may ultimately, be subject of investigation. Deaths of this classification include: Caisson Disease (bends), industrial infections anthrax, septicemia following wounds including gas bacillus infections, tetanus, etc.) Silicosis, industrial poisonings (acids, tetrachloride, cyanogen, lead, nitrous fumes, etc.), Contusions, abrasions, fractures, burns (flames, chemical or electrical) received during employment which, in the opinion of the attending physician, are sufficiently important, either as the cause or contributing factor to the cause of death, to warrant certifying them on the death certificate.

5. All stillborn infants where there is suspicion of illegal interference.
6. Deaths of persons where the attending physician cannot be found, or deaths of persons who have not been attended by a physician within two weeks prior to the date of death.

7. All deaths occurring within 24 hours of admission to a hospital.

8. All hip fractures if the patient dies within one year and one month, will be a Coroner’s case and the Coroner must be notified.

9. All deaths in State institutions and all deaths of wards of the State in private care facilities or in programs funded by the Department of Mental Health and Development Disabilities or the Department of Children and Family Services shall be reported to the Coroner of the County in which the facility is located. If the Coroner has reason to believe that an investigation is needed to determine whether the death was caused by maltreatment or negligent care of the ward of the State, the Coroner may conduct a preliminary investigation of the circumstances of such death as in cases of death under circumstances set forth in the Illinois Compiled Statutes.

10. Any deaths, which occur within DeKalb County and not at a hospital, or nursing home facility (at any residence, employer, and/or public facility) will immediately be reported to the Coroner.

VI. Cremations

All deaths in DeKalb County where a cremation of the remains is to take place.
CORONER'S ACT
Illinois Compiled Statutes
Chapter 55

Section: 5/3-3020
Coroner to be Notified—Violation

Every law enforcement official, funeral director, ambulance attendant, hospital director or administrator or person having custody of the body of a deceased person, where the death is one subject to investigation under Section 3-3013, and any physician in attendance upon such a decedent at the time of his/her death, shall notify the Coroner promptly. Any such person failing to so notify the Coroner promptly shall be guilty of a Class A Misdemeanor, unless such person has reasonable cause to believe that the Coroner had already been so notified.

Section: 5/3-3019
Removal of Bodies—Violation

No dead body which may be subject to the terms of this Division, or the personal property of such a deceased person, shall be handled, moved, disturbed, embalmed or removed from the place of death by any person, except with the permission of the Coroner, unless the same shall be necessary to protect such body or property from damage or destruction, or unless necessary to protect life, safety, or health. Any person knowingly violating the provisions of this Section is guilty of a Class A Misdemeanor.

Section: 5/3-3017
Cremation

In any death where the remains are to be cremated, it shall be the duty of the funeral director or person having custody of the death body to obtain from the Coroner a permit to cremate the body. The Coroner’s permit to cremate shall be presented to the local registrar in applying for Permit for Disposition of Dead Human Body provided for in Section 21 of the Vital Records Act, and the local registrar shall attach the Coroner's permit to cremate to the Permit for Disposition of Dead Human Body which is issued. No crematory shall cremate a dead human body unless a Permit of Disposition of Dead Human Body with an attached Coroner's permit to cremate has been furnished to authorize the cremation.

Please consult the Coroner's Office regarding any death about which you have any doubt or questions. Coroner's Office Telephone: 815/895-7206

*RETURNED TO MEDICAL PROFESSION FOR ISSUANCE OF MEDICAL DEATH CERTIFICATE—CORONER’S INVESTIGATION ONLY.

REMARKS:
1) Undetermined manner is where the Coroner’s jury at the inquest could not clearly determine the manner of death (either insufficient evidence was available or they were indecisive).
2) Many cases are reportable to the Coroner pursuant to the State law based on a number of categories. However, after conducting a preliminary investigation, the cause of death is determined to be Natural and the attending physician had seen the deceased within the last fourteen (14) days, the case is then returned to the doctor to issue a medical certificate of death as opposed to a Coroner’s certificate of death. There are limited exceptions.
3) Autopsies are only ordered by the Coroner’s office when the cause of death is unknown or for criminal type cases (such as homicides). Autopsies are not performed unnecessarily as the cost of such is paid by the taxpayers.
