Pre-Sentence Investigations

Illinois Statutes require the preparation of offender background reports for the judiciary prior to a sentence being imposed. The reports include: (1) investigation of the offender's criminal history, including previous terms of community supervision or incarceration, past or present gang involvement, and history of violence and use of weapons; (2) the offender's personal information, including family of origin, current residence and family relations, educational and employment histories, financial situation, and military history; (3) the offender's health information, including physical health, mental health, drug and/or alcohol addiction histories, and any previous treatment history. The officers analyze the data they have collected and make specific recommendations as to the potential for rehabilitation, risk to the community, and sentencing options available to the Courts.

Non-Reporting Probation Cases

Defendants sentenced to Conditional Discharge are typically not required to check in directly with Probation, however officers monitor conditions of sentencing and perform functions such as preparing court reports, random drug testing, DNA collection, etc. Probation cases that are transferred to another jurisdiction for supervision are also monitored administratively by Court Services staff.

Technical Violation

A technical violation is when a defendant under an order of Probation violates one or more conditions set by the court in their sentencing order. Common examples include failing a drug test, not reporting to scheduled probation appointments, not completing court ordered treatment, etc.

Criminal Violation

A criminal violation is when a defendant under an order of Probation is charged with a new criminal offense.
